

About Williams Farm & Facility

Nestled in the beautiful foothills of western North Carolina, Williams Farm is a 320 acre working farm located in the small town of Roaring River. Our 3,200 square foot rustic barn can was originally built in the 1950s to

serve as a location to store hay and feed livestock. In 2011, the barn was renovated to serve as a wedding reception location. With a few updates and changes, the facility has been beautifully restored and now serves as a rustic and beautiful all-inclusive events venue. It can accommodate 200 guests as well as additional seating on the grounds.

At Williams Farm we strive to meet all our client's needs by offering an all-inclusive event package. Included in the event package are round and rectangular dining tables, chairs, and linens to accommodate 160 guests in addition to serving tables and linens. We also have ceremony and reception decorations.

A complete list of items will be provided upon request.

Event Planning

Your wedding day will be one of the most memorable days of your life. You want each detail to be perfect but trying to manage everything can be stressful and frustrating. Allowing Williams Farm event planners to assist with the planning process gives you the opportunity to relax and enjoy this special time without feeling overwhelmed.
